# TRID Application Application Process Overview

The Urban Redevelopment Authority (URA) reviews all private sector applications for Transit Revitalization Investment District (TRID) assistance. The process outlined below describes the process for approving a TRID Application. The typical timeline for approval is four to six months, although more complex projects typically require more time to review and approve.

**1. Convene Introductory Meetings Prior to Formal Application with URA Staff**

Prior to the preparation of a formal TRID application, prospective applicants should request a meeting with the appropriate URA staff to discuss the concept of the potential project and its scope, its connection to the TRID Planning Study, as well as other potential financing tools available to the URA. Follow up meetings may occur before official TRID proposal is submitted. During these meetings, TRID Application Part #1 should be submitted (see enclosed application). No payment is required at this time.

**2. Submission and Review of TRID Application Part #2**

The URA requires submission of a formal application in order to consider an applicant's request for TRID assistance. An application must include the items referenced in the TRID Application Part #2 checklist (see enclosed application), and applicants are required to demonstrate a financial need for TRID assistance as well as the public benefit of the payment and its support of the TRID's goals as outlined by the TRID planning study. At this point, payment of the TRID Application Fee (\$7,500) is required. In addition, submission of the p4 self-evaluation worksheet will be required and subject to review by URA's p4 Committee. The worksheet and related materials are available at <http://p4pittsburgh.org/pages/p4-performance-measures>

**3. Draft TRID Implementation Plan and Circulate Draft to the URA Board of Directors and the Taxing Bodies**

**4. Schedule meetings with the TRID Committee to receive proposed changes to the TRID Implementation Plan**

The public approval process will be initiated if the TRID Committee decides to recommend the TRID Plan following this evaluation

**5. Request Resolution from URA Board of Directors**

The request should include a TRID Implementation Plan. At least 30 days before the inducement resolution is requested, the applicant is required to make an initial payment to the URA project Development Account (\$25,000).

**6. Request Resolutions to Participate from the Taxing Bodies on TRID Implementation Plan**

The taxing bodies will by ordinance or resolution agree to participate in or opt out of the TRID.

**7. Public Meeting to explain TRID and alternative implementation approaches.**

At least one public meeting must be held in accordance with Section 901 Transit Revitalization Investment District Act, Act of Dec. 8, 2004, P.L. 1801, No. 238. The City and the Port Authority of Allegheny County shall jointly conduct at least one public meeting in the proposed TRID area prior to the enactment of a TRID. The meeting is intended to explain the purpose and components of the TRID and the alternative implementation approaches. The public meeting or meetings shall be in addition to any required local government public hearing or hearings prior to TRID adoption.

**8. Implement Project**

RESPONSES FOR THIS FORM OF THE TRID APPLICATION SHOULD BE COMPLETED IN A SEPARATE DOCUMENT AND ATTACHED TO THE APPLICATION WITH A HEADING THAT INCLUDES APPLICANT NAME, DATE, AND CONTACT INFORMATION.

### **PROJECT DESCRIPTION**

#### **1. Relevant Experience**

Please list any relevant experience or history you have working with Transit Revitalization Investment Districts.

#### **2. Project Narrative**

Provide an overview of the project in narrative format. The summary must include the following information:

- Project Location
- Description of the current location, including current condition
- Projected impacts of the project (e.g. effects on transit use, traffic to the District, enabling further development, etc.)
- Description of construction or renovations, including size and scale of project
- How this project contributes to TOD in the District
- Proposed use of TRID Funds

#### **3. Project Timeline**

A comprehensive project timeline is required. Include anticipated dates for site acquisition, project start and completion, as well as other project milestones. Multi-phase projects must include details for each phase. The timeline should also identify any critical or time-sensitive dates as well as any time constraints facing the Applicant.

#### **4. Transit Oriented Development**

Fully describe the elements of TOD that will be added to the district through the completion of this project. Projects with a high degree of transit impact are typically more likely to receive TRID assistance. Examples of public benefits include, but are not limited to the following:

- Increased public transit use
- Increased public transit accessibility and visibility
- Increased walkability of neighborhood
- Increased variation in housing stock
- Improved street design
- Increased neighborhood density

This statement should include qualitative examples of TOD as well as quantifiable and measurable outcomes of the short-term and long-term benefits to the neighborhood and to the City of Pittsburgh. Support documents for the estimates of public benefits can be included as an attachment.

#### **5. Compliance with TRID Planning Study and Master Plan(s)**

Describe how this project will comply with the TRID Planning Study, City of Pittsburgh Comprehensive Plan (when approved) and (if applicable) any neighborhood master plans affecting the project.

**6. Displacement Plan**

Identify the number of residents and businesses, in any who have been or will be displaced as a direct result of this project. Provide a statement on your plan for the relocation of these individuals and organizations.

**PROJECT FINANCIAL INFORMATION**

**7. Sources and Uses of Funds**

Identify the sources of funds used to finance the project. Please include typical sources such as equity, lender financing, mezzanine financing, government financing, other anticipated types of public assistance, and any other types or methods of financing. Describe the sources of equity. Include a term sheet for lender financing, if available.

Summarize the uses of funds. General categories to be identified include: acquisition and related site costs, hard construction costs, and a breakdown of soft costs.

**8. Request for TRID Assistance**

Specifically state the amount of TRID assistance that is necessary to make this project possible. Also specify the budget costs that will be funded using TRID assistance.

**9. Analysis of Financial Need**

Each applicant must include financial analyses that demonstrate the need for TRID assistance. Two analyses must be submitted: one without TRID assistance and one with TRID assistance. The applicant must indicate the minimum return or profit the applicant needs to proceed with the project and the rationale for this minimum return or profit. At its discretion, the ura may hire an independent advisor to verify the accuracy of these analyses. The analyses will necessarily differ according to the type of project that is being developed.

Rental Property – For project involving the rental of space by the developer to tenants (tenants include offices, retail stores, industrial companies, and households), an internal rate of return on equity must be computed with and without TRID assistance. State all assumptions to the analyses.

For Sale Residential – Show profit as a percent of project costs (minus developer fee and overhead and minus sales commission and closing costs, which should be subtracted from gross sales revenue). Other measures of profitability may be submitted, such as profit as a percent of sales revenue.

Mixed Use Commercial/For Sale Residential – Provide either separate analyses for each component of the project or include in the revenue sources for the for-sale portion, the sale value of the commercial component based on the net operating income of the commercial space at stabilization. Indicate how the sale value was derived.

Owner-Occupied Commercial – For projects, such as “big-box” retail projects, provide copies of the analyses that the company used to determine the amount of TRID assistance that would be needed to allow the company to meet or exceed the company’s minimum investment threshold(s) for proceeding with the project.

Competitive Projects – In instances where the City is competing with other jurisdictions outside the region for the project (e.g. corporate headquarters, new manufacturing plant, etc.), present detailed analyses that demonstrate the capital and operating cost differential between the proposed location(s) in Pittsburgh and the locations outside the City that are being seriously considered by the applicant.

**10. Increment Projections**
