2018 Households by Disposable Income	2 Minute Drive Time	10 Minute Drive Time
<\$15,000	15.4%	27.2%
\$15,000—\$24,999	12.1%	16.3%
\$25,000—\$34,999	12.6%	13.3%
\$35,000—\$49,999	16.7%	14.8%
\$50,000—\$74,999	14.6%	13.7%
\$75,000—\$99,999	11.1%	6.8%
\$100,000—\$149,999	13.0%	5.5%
\$150,000+	4.5%	2.2%
Median Disposable Income	\$42,625	\$29,104

Note: Disposable income is after-tax household income.

Note: The Spending Potential Index is household-based, and represents the asset value or amount spent for a product or service relative to the national average of 100. Values higher than 100 indicate spending above the national average, and values lower than 100 indicate lower spending than the national average.

^{*}This ratio indicates the number of employees working in the area versus the number of residents. A higher ratio indicates more commercial presence.

**Supply (retail sales) estimates sales to consumers by establishments. Sales to businesses are excluded. Demand (retail potential) estimates the expected amount spent by consumers at retail establishments. The Leakage/Surplus Factor measures the relationship between supply and demand that ranges from +100 (total leakage) to -100 (total surplus). A positive value represents 'leakage' of retail opportunity outside the trade area. A negative value represents a surplus of retail sales, a market where customers are drawn in from outside the trade area. The Retail Gap represents the difference between Retail Potential and Retail Sales. The NAICS is used to classify businesses by their primary type of economic activity.

Trade Area Tapestry Segmentation Area Profile:

Neighborhood Quick Facts*

- 17th most populous neighborhood in Pittsburgh
- 2nd highest % of buildings build before 1939 in Pittsburgh
- Entertainment district creates a regional destination

TAPESTRY SEGMENT DESCRIPTIONS

College Towns

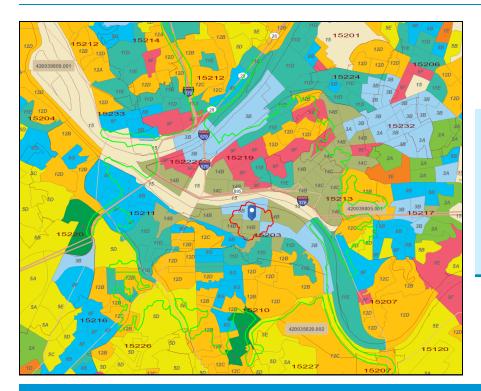

About half the residents of College Towns are enrolled in college, while the rest work for a college or the services that support it. Students have busy schedules, but make time between studying and part-time jobs for socializing and sports. Students that are new to managing their own finances tend to make impulse buys and splurge on the latest fashions. This digitally engaged group uses computers and cell phones for all aspects of life including shopping, school work, news, social media, and entertainment. College Towns are all about new experiences, and residents seek out variety and adventure in their lives

Metro Renters

Residents in this highly mobile and educated market live alone or with a roommate in older apartment buildings and condos located in the urban core of the city. This is one of the fastest growing segments; the popularity of urban life continues to increase for consumers in their late twenties and thirties. Metro Renters residents income is close to the US average, but they spend a large portion of their wages on rent, clothes, and the latest technology. Computers and cell phones are an integral part of everyday life and are used interchangeably for news, entertainment, shopping, and social media. Metro Renters residents live close to their jobs and usually walk or take a taxi to get around the city.

Note: ESRI is an independent geographic information systems (GIS) corporation and is not affiliated with the Urban Redevelopment Authority of Pittsburgh. This analysis utilizes socioeconomic and marketing data to identify distinct segments of the population, map where they reside, and describe their socioeconomic qualities and consumer preferences. More information on tapestry segments and segment descriptions can be found at: http://www.esri.com/library/whitepapers/pdfs/community

^{*} The Walk Score is a measure between 0 and 100 that measures the ease of accessing amenities and running errands by walking. For more information, see http://www.walkscore.com/

- Persons per sq. mile: 6,372 City average: 5.646)
- Walk Score: 97

TAPESTRY SEGMENT DESCRIPTIONS

College Towns

About half the residents of College Towns are enrolled in college, while the rest work for a college or the services that support it. Students have busy schedules, but make time between studying and part-time jobs for socializing and sports. Students that are new to managing their own finances tend to make impulse buys and splurge on the latest fashions. This digitally engaged group uses computers and cell phones for all aspects of life including shopping, school work, news, social media, and entertainment. College Towns are all about new experiences, and residents seek out variety and adventure in their lives.

Traditional Living

Residents in this segment live primarily in low-density, settled neighborhoods in the Midwest. The households are a mix of married-couple families and singles. Many families encompass two generations who have lived and worked in the community; their children are likely to follow suit. The manufacturing, retail trade, and health care sectors are the primary sources of employment for these residents. This is a younger market—beginning householders who are juggling the responsibilities of living on their own or a new marriage, while retaining their youthful interests in style and fun.

Set to Impress

Set to Impress is depicted by medium to large multiunit apartments with lower than average rents. These apartments are often nestled into neighborhoods with other businesses or single-family housing. Nearly one in three residents is 20 to 34 years old, and over half of the homes are nonfamily households. Although many residents live alone, they preserve close connections with their family. Income levels are low; many work in food service while they are attending college. This group is always looking for a deal. They are very conscious of their image and seek to bolster their status with the latest fashion. Set to Impress residents are tapped into popular music and the local music scene.

Metro Renters

Residents in this highly mobile and educated market live alone or with a roommate in older apartment buildings and condos located in the urban core of the city. This is one of the fastest growing segments; the popularity of urban life continues to increase for consumers in their late twenties and thirties. Metro Renters residents income is close to the US average, but they spend a large portion of their wages on rent, clothes, and the latest technology. Computers and cell phones are an integral part of everyday life and are used interchangeably for news, entertainment, shopping, and social media. Metro Renters residents live close to their jobs and usually walk or take a taxi to get around the city.

Business District Programs

The Pittsburgh Micro-Enterprise Loan Program

The Micro-Enterprise Loan Program is part of the Urban Redevelopment Authority of Pittsburgh's (URA) strategy to promote opportunities for groups who have not had ready access to business financing in the City of Pittsburgh, including minority- and women-owned businesses. The program is part of the URA's strategy to create new jobs, encourage new business start-up and expansion and grow the City of Pittsburgh's tax base by assisting entrepreneurs and stimulating business growth in the city.

For more information about applications and eligibility, visit: https://www.ura.org/pages/access-to-capital http://www.ura.org/business_owners/mainstreets.php

Neighborhood Business District Program

This program strives to ensure the health of the City's traditional neighborhood commercial districts using the National Main Street Center's Four Point Approach which considers: economic restructuring, promotion, design and sustainability.

To learn more about this program, contact Josette Fitzgibbons at (412) 255-6686 or visit:

Façade Improvement Programs

Restored storefronts improve the pedestrian environment, attract more customers, and encourage economic development and investment. The URA offers several different façade improvement programs designed for commercial building owners and tenants to improve their storefronts. Your location determines your building's façade improvement program eligibility.

For more information about applications and eligibility, contact Quianna Wasler at (412) 255-6550 or visit:
