2021 Households by Disposable In- come	2 Minute Drive	10 Minute Drive
<\$15,000	12.8%	17.7%
\$15,000—\$24,999	12.6%	13.4%
\$25,000-\$34,999	10.2%	10.7%
\$35,000-\$49,999	14.9%	14.4%
\$50,000—\$74,999	20.9%	18.9%
\$75,000—\$99,999	10.3%	9.7%
\$100,000—\$149,999	14.1%	10.3%
\$150,000+	4.2%	4.9%
Median Disposable Income	\$49,431	\$42,264

Note: Disposable income is after-tax household income.

Note: The Spending Potential Index is household-based, and represents the asset value or amount spent for a product or service relative to the national average of 100. Values higher than 100 indicate spending above the national average, and values lower than 100 indicate lower spending than the national average.

*This ratio indicates the number of employees working in the area versus the number of residents. A higher ratio indicates more commercial presence.

Bachelor's Degree	33.0%	22.7%
Graduate or Professional Degree	14.2%	14.6%

"Supply (retail sales) estimates sales to consumers by establishments. Sales to businesses are excluded. Demand (retail potential) estimates the expected amount spent by consumers at retail establishments. The Leakage/Surplus Factor measures the relationship between supply and demand that ranges from +100 (total leakage) to -100 (total surplus). A positive value represents "leakage" of retail opportunity outside the trade area. A negative value represents a surplus of retail sales, a market where customers are drawn in from outside the trade area. The Retail Gap represents the difference between Retail Potential and Retail Sales. The NAICS is used to classify businesses by their primary type of economic activity.

Walk Score: 78

Walk Score: 77

Walk Score: 43

* The Walk Score is a measure between 0 and 100 that measures the ease of accessing amenities and running errands by walking. For more information, see http://www.walkscore.com/

TAPESTRY SEGMENT DESCRIPTIONS

Set to Impress

Set to Impress is depicted by medium to large multiunit apartments with lower than average rents. These apartments are often nestled into neighborhoods with other businesses or single-family housing. Nearly one in three residents are 20 to 34 years old, and a large portion are single person nonfamily households. Although many residents live alone, they preserve close connections with their families. Many work in food service while they are attending college. This group is always looking for a deal. They are very conscious of their image and seek to bolster their status with the latest fashion. Set to Impress residents are tapped into popular music and the local music scene.

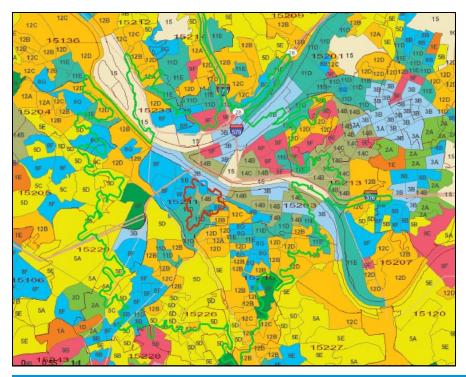

College Towns

About half the residents of College Towns are enrolled in college, while the rest work for a college or the services that support it. Students have busy schedules, but make time between studying and part-time jobs for socializing and sports. Students that are new to managing their own finances tend to make impulse buys and splurge on the latest fashions. This digitally engaged group uses computers and cell phones for all aspects of life including shopping, school work, news, social media, and entertainment. College Towns are all about new experiences, and residents seek out variety and adventure in their lives.

Emerald City

Emerald City's denizens live in lower-density neighborhoods of urban areas throughout the country. Young and mobile, they are more likely to rent. Half have a college degree and a professional occupation. Incomes close to the US median income primarily from wages, investments, and self-employment. This group is highly connected, using the Internet for entertainment and making environmentally friendly purchases. Long hours on the Internet are balanced with time at the gym. Many embrace the "foodie" culture and enjoy cooking adventurous meals using local and organic foods. Music and art are major sources of enjoyment. They travel frequently, both abroad and domestically.

TAPESTRY SEGMENT DESCRIPTIONS

College Towns

About half the residents of College Towns are enrolled in college, while the rest work for a college or the services that support it. Students have busy schedules, but make time between studying and part-time jobs for socializing and sports. Students that are new to managing their own finances tend to make impulse buys and splurge on the latest fashions. This digitally engaged group uses computers and cell phones for all aspects of life including shopping, school work, news, social media, and entertainment. College Towns are all about new experiences, and residents seek out variety and adventure in their lives.

Rustbelt Traditions

The backbone of older industrial cities in states surrounding the Great Lakes, Rustbelt Traditions residents are a mix of married-couple families and singles living in older developments of single-family homes. While varied, the work force is primarily white collar, with a higher concentration of skilled workers in manufacturing, retail trade, and health care. Rustbelt Traditions represents a large market of stable, hard-working consumers with modest incomes but an average net worth of nearly \$400,000. Family oriented, they value time spent at home. Most have lived, worked, and played in the same area for years.

Traditional Living

Residents in this segment live primarily in low-density, settled neighborhoods in the Midwest. The households are a mix of married-couple families and singles. Many families encompass two generations who have lived and worked in the community; their children are likely to follow suit. The manufacturing, retail trade, and health care sectors are the primary sources of employment for these residents. This is a younger market—beginning householders who are juggling the responsibilities of living on their own or a new marriage, while retaining their youthful interests in style and fun.
