

Minority Business Recovery and Growth Loan Fund

Program Guidelines February 2022

Statement of Program Purpose

The COVID-19 outbreak has forced small businesses across Pittsburgh to shut down. Revenue for many of these small businesses, especially in neighborhood business districts, has dropped 70-90% or more. Most have laid off employees and require patient capital to continue to pay fixed costs, adjust to the COVID-19 regulations, and plan for future growth.

As Pittsburgh emerges from the immediate economic fallout from COVID-19, small businesses will need substantial support to stabilize, ramp up, and grow in the face of uncertain economic times. Steep and sudden losses in GDP combined with a slow and uncertain recovery will make availability of capital to invest in small businesses extraordinarily important.

Some of the businesses that have been hit the hardest are minority-owned businesses. Federal Reserve Banks' 2020 report "Can Small Firms Weather the Economic Effects of COVID-19?", reported that minority-owned small businesses were significantly more likely to show signs of limited financial health—by factors such as profitability, credit scores, and propensity to use retained earnings as a primary funding source.

Historic and structural challenges that minority businesses have always faced have only grown during the COVID-19 crisis. In an effort to reduce some of the inequity and open access to capital, the URA will be focusing this program entirely on minority-owned businesses across the city of Pittsburgh.

Program Application Evaluation Criteria

Business Evaluation

The purpose of the Program is to support small businesses who demonstrate pre COVID-19 crisis viability and viability to repay the loan post COVID-19 crisis.

The historical performance of the business will be evaluated and, if applicable, the proposed owners will be evaluated to assess the ability to repay the loan. The URA evaluates applications utilizing standard loan underwriting criteria, including the 5 'c's of commercial credit: cash flow, capital, collateral, character and credit.

Specifically, this evaluation will include, but is not limited to the following:

1. Viability of the Business: If applicable, this involves an evaluation of one (1) year prior financial performance, including but not limited to an examination of tax returns, bank accounts, balance sheets, income statements and cash flow statements.
2. Financial Performance of the Owners: This involves an evaluation of the personal tax returns of the prior year, a personal financial statement, and a credit bureau check. Applicants with poor credit history will be considered but may be required to attend financial literacy workshops as a requirement of the loan conditions.
3. Management Ability: This involves an evaluation of the capacity, experience and skills of the proprietor, partners, or directors. This includes general business experience as well as specialized experience in the particular industry.
4. Public Record Review: This involves an evaluation of public records of the business and its principals. This includes review of prothonotary records, tax checks, federal excluded party database, and other public record sources.

Project Evaluation

The merits of the proposed uses of the funds will also be assessed to determine the ability to repay the loan. Businesses must demonstrate sufficient cash flow in order to repay the loan. Specifically, this evaluation will include:

1. Projected Income and Expenses: This involves an assessment of the validity and risk of the income and expense projections. The applicant must demonstrate that the business is financially feasible, project costs are reasonable, and the business can repay the proposed assistance.
2. Projected Financial Statements: A credit analysis will be performed using both historical and projected financial statements.

Public Benefit Evaluation

The purpose of the Program is to support minority-owned, neighborhood serving small businesses most adversely affected by the COVID-19 crisis.

Further, the purpose of the Program is to preserve and create jobs and improve to quality of life for Pittsburgh.
