

We believe that urban agriculture can nourish the health and social fabric of communities while activating economic development potential for farmers and neighborhoods.

The Farm-a-Lot Program provides access to public land for commercial and small-scale farming initiatives throughout the City of Pittsburgh.

### **Program Vision & Goals**

- Convert vacant properties owned by the Urban Redevelopment Authority of Pittsburgh (URA) into farmer-stewarded urban agricultural sites
- Prepare local farmers to acquire property from the URA
- Help small urban agriculture businesses to support the inclusive and healthy growth of neighborhoods

- Promote community investment and land recycling strategies that build a more equitable Pittsburgh
- Re-imagine diverse space activation and foster neighborhood interaction
- Support efforts to develop local urban food systems that are just and sustainable in their benefit to Pittsburgh communities

#### **Eligible Uses**

Eligible activities for the Farm-a-Lot Program include edible gardens, rain gardens, community gardens, flower gardens, pollinator gardens or bee farms.

## **Eligibility Requirements**

A qualified Farm-a-Lot applicant:

- Has no outstanding City, School, and/or County real estate taxes, or can present evidence of enrollment in applicable repayment plan(s)
- Owns no property that has any unremedied citations or violations of State and Local property codes and ordinances
- Was not subject to a judgment in a tax foreclosure proceeding in the past five years
- Has no delinquent water accounts with the City of Pittsburgh's Water and Sewer Authority or other local water utility
- Must provide evidence of property insurance acceptable to the URA
- Must provide evidence of a financing plan for project costs
- Must obtain or be in the process of obtaining all appropriate permits and authorizations from the City of Pittsburgh's Department of Permits, Licenses and Inspections, if applicable

#### **Program Progression**

Applicants can apply for land access for **up to three years** at a time. Timeline:

- Prior to access: Soil must be tested to determine if the parcels are eligible for urban agriculture.
- Year One: Entrance into a three-year license agreement
- Year Two: Review of the property to determine if it is eligible for sale to the applicant through the Pittsburgh Land Bank's disposition process

# How to Apply
