

Urban Redevelopment Authority of Pittsburgh

SMALL LANDLORD FUND

Program Guidelines

04/11/2024

A. Program Objective

The Small Landlord Fund (SLF) will be used to help fund the preservation of existing affordable rental housing and / or the conversion of market/vacant housing to affordable housing in the City of Pittsburgh by providing financing to landlords of 1 to 10-units. The SLF is designed to increase the supply of decent affordable housing and to eliminate health, safety, and property maintenance deficiencies as well as to ensure compliance with applicable codes and standards.

For the SLF, affordable housing is defined as housing that will be rented to households at or below 80% of area median income (AMI).

The Housing Authority of the City of Pittsburgh (HACP) administers a Housing Choice Voucher (HCV) program (also known as Section 8). Through the HCV program, HACP provides low-income households housing assistance vouchers. These households can utilize these vouchers to rent privately owned rental units. The households pay 30% of their monthly income for rent and utilities. HACP pays the difference between the monthly rent and the 30% of the household's income to the landlord, ensuring that the landlord receives the entire month's rent for the subsidized unit. A primary objective of SLF is to increase the availability of affordable units utilizing HCV. Borrowers will be encouraged to accept Housing Choice Vouchers. Should a Borrower choose not to accept Housing Choice Vouchers, their units will be subject to a predetermined schedule of maximum rent limits during the term of the loan to prevent the displacement of existing residents.
